

FTC Meeting Log

Date: _____ Start-End Times: _____

Attendance:

Tasks:

What happened? What was discussed? Were any plans made for future meetings? Did we change anything about the robot design?

Reflections:

What worked and what did not? What did we learn? If we changed anything on the robot, why did we decide to do so? Is there any math/science/game strategy reasoning involved that we recognize?

NOTE: Attach any design drawing/notes from the meeting to this sheet! Make sure that they are written in ink and initialled by the team member that authored them.
