QUOTE OF THE WEEK

"Normally, in the presence of radiation, communication links fail. But with autonomous robots, you don't need communications."

JOKE OF THE WEEK

Jane: What did the man say to his dead robot?

John: What?

Jane: "Rust in pieces."

Any questions? E-mail Tyler at tyler.d.peterson.2@ndsu.edu

Could this newsletter be 1000% better? [\(Sign-up\)](#) to be the editor of the weekly newsletter!

Project Teams

NASA MINING COMPETITION

This week the frame will be cut, and welded. We're meeting Friday from 2-4 to start putting this beautiful machine together!

If you want to go to the competition and you haven't registered with NASA [Click here.](#)

ROBOT IN 3 DAYS (Ri3D)

We're getting together on Wednesday to work on a custom drive train in the Mechatronics lab in Dolve. We have a hard deadline to have the Ri3D Bill of Materials completed by 11/15.

QUADCOPTER

Our current hardware will be put together at an upcoming meeting. The team is looking at meeting on Wednesdays and/or Fridays. We're considering a couple of awesome competitions for this year.

BATTLEBOTS

The team held their first meeting on 9/21. We're looking at registering for a competition for this year. Our next meeting is on 9/28 in Dolve 117 from 6 to 6:50pm.
